

Family Connects

The Family Connects team through Children's Home Association of Illinois employs highly qualified and specially trained registered nurses to perform postpartum home visits for all Peoria County families with newborn babies. The wonderful support team helps schedule visits, conducts follow-up calls, and offers additional support such as parenting groups. Family Connects has proudly supported families in the community for six years and we want to introduce you to the team that makes that possible.

Reach out at familyconnects@chail.org.
